

Get set for CYBERUK 2022

As we prepare to say goodbye to 2021, we wanted to give you a preview of our plans for the NCSC's flagship event CYBERUK 2022 taking place 10-11 May.

CYBERUK 2022 will bring together the UK's cyber security community across government, industry and academia to explore the role that cyber security can play in strengthening our nation's capabilities, resilience, and technologies for the future.

For the first time ever, CYBERUK 2022 will be delivered in hybrid format to reach the widest possible audience yet. The programme show will combine engaging plenary sessions, live networking opportunities, lightning talks and interactive workshops, with many elements also streamed live on the [CYBERUK Online](#) YouTube channel both during the event and available on-demand afterwards.

However you want to engage with CYBERUK 2022 - don't miss it!

**Registration
coming soon!**

CYBERUK 2022 registration will open early in the New Year - in the meantime, be sure to keep an eye on the event website, our social media channels and these e-bulletins to ensure you don't miss out on securing your place.

Reaching cyber security's future potential, together

The theme of CYBERUK 2022 builds on the [National Cyber Strategy](#), published this week, and will examine what it means to take a whole of society approach to cyber security that will ultimately strengthen our security, keep us ahead of our adversaries in cyberspace, and shape tomorrow's technologies so they are safe, secure and open.

The programme, currently under development, will be based around three key areas:

STREAM A

Resilience and tackling the threat*
Staying ahead of adversaries

STREAM B

Technology and ecosystem*
Shaping future cyber technologies

STREAM C

Local to global leadership*
Strengthening the whole cyber community

*While the context of the themes will remain, the titles are subject to change.

“The single most valuable event in the calendar.”

- Public sector delegate

Who should attend?

Strategy & Leadership Community:

those with overall responsibility for cyber security in government departments (central and wider). There will also be a strong industry presence from across the UK and worldwide.

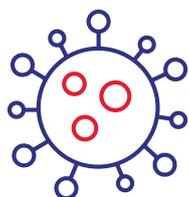

Cyber Security Professionals:

technology and cyber security professionals at all levels from across the public sector, Critical National Infrastructure and industry.

The venue

The International Convention Centre (ICC Wales) will host CYBERUK 2022. This stunning state-of-the-art venue in Newport, is a stone's throw from the M4, just an hour from Cardiff Airport and main train stations.

Covid measures

Delegate, sponsor, exhibitor and staff safety and wellbeing is of paramount importance to us, and we will be monitoring the situation and government guidelines closely. We will be following guidance and taking all appropriate measures onsite to ensure CYBERUK 2022 is a safe environment for all event attendees. We will continue to update this information as the situation evolves.

Get involved

Be seen, stand out and align your brand with the UK's most important event of the UK's cyber security community - apply to become a sponsor or exhibitor today.

CYBERUK 2022 promises to bring the best of both worlds - it's the chance to meet and engage with live delegates and reach many more online. A wide range of sponsor packages are currently available, the deadline is for key content packages is fast approaching but we have many more opportunities available.

Now's the time to make sure that your company is front-of-mind at CYBERUK 2022.

**Wishing you all the best for a happy and healthy 2022!
NCSC Events Team**

CYBERUK is hosted by the National Cyber Security Centre as part of the UK Government's vision to make the UK the safest place to live and work online. CYBERUK 2022 will provide a platform for the cyber security industry - and those with a stake in it - to set out and advance the whole of society approach and help make the UK and its allies, and the lives and livelihoods of its citizens, more resilient to the threats and ready for the opportunities ahead.
